This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

ANNUAL REPORT

OF THE

Pennsylvania Commission of Soldiers' Orphan Schools

FOR THE

YEAR ENDING MAY 31, 1905.

To the Senate and House of Representatives of the Commonwealth of Pennsylvania:

Gentlemen: Herewith, as required by the act of Assembly, is presented the Report of the Soldiers' Orphans Schools Commission having charge of the proper conduct of the schools authorized by the law of the State. This report will show the condition of the schools for the year ending May 31 1905.

May 31st, 1904, there were 950 pupils enrolled, and on May 31st, 1905, the rolls contained 885, a decrease in that period of 65. This includes the forty-first year of the schools, and the sixteenth year under the management of the Commission.

During the past school year there has been no epidemic of disease. Of course there is always more or less sickness, and always will be, among children congregated as we have them in the schools, and that we have been enabled to escape the different epidmics of disease which have swept over the State from time to time can be credited to the watchfulness and care shown by the employes of the different schools.

The action of the State in continuing these schools for all the years since the close of the war has been, in the judgment of this commission, a wise and commendable one. When we stop to consider that there have been nearly 20,000 boys and girls educated and cared for in these schools, many of whom now fill honorable and responsible positions, we cannot help but declare that this grand old Commonwealth of Pennsylvania is true to her sons who offered their lives to protect her honor and integrity.

The children coming into the schools now are very young, and as we have before stated, it must necessarily be some years before they can be finally discharged. That means the ultimate concentration of all the children at the Industrial School at Scotland, Franklin county, Pa. At this school they can be taught some things which

Digitized by Google

will aid them in the battle of this life. The boys and girls work in the printing office, the tailoring department and in the laundry. Boys are also employed in the wood-working department, machine shop, engine room, and learning the nitricacies of electricity and farming. The girls are instructed in housework and dressmaking; and boys and girls are taught telegraphy, typewriting and stenography. Many of the pupils who have graduated from the schools are employed in the different railway offices, telegraph offices, and in business offices throughout the State.

In each of the three schools military training is given the boys and they are then taught the value or discipline and obedience, which, in the struggle of life, is of paramount importance.

Farms are also attached to each school, upon which is raised a large portion of the vegetables used, such as potatoes, corn, onions, etc.

The following is the population of the schools for the year ending May 31, 1905:

	Boys.	Girls.	Total.
Chester Springs,	187	112	299
Uniontown,	180	92	272
Industrial,	186	128	314
Total,	553	332	885

The members of the commission, all of whom are members of the Grand Army of the Republic, desire, at this time, to express to the Legislature, and through them, to the people of the State, their appreciation of the patriotic spirit that has kept alive this wise and beneficent system. It is an authoritive declaration to all who may follow that Pennsylvania never tires in performing a patriotic duty. While it has cost money to continue this system, yet to the minds of the members of this commission, the State could expend no money which will bring back a greater reward in the future than that of caring for the children who may be unfortunate enough not to have the care or protection of parents and friends. If left to wander and grow up without some discipline being enforced, in after years it would bring about such a state of affairs in society that it would cost the State more money in providing reformatory and correctional institutions than it has done to provide these homes. We do not mean to say by this that this class of children is confined exclusively to those of the soldiers of the War of the Rebellion, but they belong to all classes of society.

In conclusion, gentlemen, the commission makes an earnest request of the members of the Legislature, the Grand Army of the Republic, the clergy, members of the press, and in fact citizens in all

the walks of life to visit these institutions and see for themselves what this commission is endeavoring to do for those committed to their charge. Attached hereto you will find the tabulated statements of all matter connected with the schools, which will give, in detail, all the information as to the conduct of the schools that may be desired.

Every member of the present commission is a comrade of the Grand Army of the Republic, as follows:

Governor Samuel W. Pennypacker, ex-officio.

On the Part of the Senate of Pennsylvania:

Jacob C. Stineman. Edward A. Irvin.

On the Part of the House of Representatives:

Thomas V. Cooper. John H. Riebel. Joseph M. McElroy.

On the Part of the Grand Army of the Republic:

Thomas G. Sample. Levi G. McCauley.
James F. Morrison. Thad. M. Mahon.
Richard H. Holgate.

Respectfully submitted,
SAML. W. PENNYPACKER,
President.
RICHARD H. HOLGATE,

ANNUAL REPORT OF INSPECTRESS.

To the Honorable Commission of Soldiers' Orhpans' Schools:

In presenting the sixth annual report to the Commission your Inspectress notes with pleasure the fact that the ordinary routine of the various schools has not been interrupted by any general sickness nor disaster of any kind, but that the management through the entire year has simply reflected the systematic movements of a well balanced organization. The very fact of a lack of novelty and of any unusual excitement is in itself a high tribute to the efficiency of the present methods of governing the schools.

It is more especially within the province of this report to call attention to the benefits received by the female pupils in the Industrial Department. The girls who have learned telegraphy, typewriting, tailoring, printing, dressmaking and general sewing and mending have been enabled at the close of their terms to enter upon lives of usefulness. While, however, these technical studies have an unmistakable value, there still remains one branch to which the attention of the Commission might be attracted with profit, namely: the branch of Domestic Science. The probable fate of the majority of the girls who leave the institution is to marry. Hence, the advisability of more attention being given to household studies, to the art of cooking, the management of food and its economies, and the cares of the household. Such knowledge might be imparted by the establishment of a Department of Domestic Science and Economy. The precedent of such a department has been established in various institutions throughout the country, and the results have been such as to encourage the teaching of the domestic arts. In all large institutions of this kind, where the children are detailed to such duties as involve a knowledge of the kitchen, the preparation of food in immense quantities strikes their attention. They can form no adequate conception of the value of these immense food products. It would seem to be well for them to be made acquainted with the prices, the value and the details of such articles as figure in the consumption of an ordinary home, and the lessons of economy thus inculcated, and the methods of utilizing small quantities, might bear good fruits in the way of the proper management of their own homes. This forms an additional reason for the organization of a distinct Department of Domestic Science as already suggested.

Among the subjects which have attracted the attention of the Commission during the present year is that of the care of the extremely youthful children. This class exists in all the schools. It is doubtful whether in cases where the children are under five years of age, that their condition warrants their subjection to very strict discipline. The female children are already under the supervision of matrons, but the male infants appear to equally need the tender care of women rather than the surveillance of the male officials.

They should be separated from the larger pupils at all times, and released in a great degree from the observance of rules applicable to those of more mature years. This suggestion involves no reflection upon those who have hitherto had the care of the children, but is recommended as an advance step which would practically be a relief to the male officials by substituting the women matrons to the care of the infants.

It is not deemed necessary in this report to enlarge upon the details which are better supplied by the exhaustive papers from the different departments. The fact remains that the duties of the Inspectress have in no ways been hampered or circumscribed by the Commission or Executive Officers, and that every facility has been offered for her examinations. Whatever might seem to have been prejudicial to the health and comfort of the children under her supervision has received attention. No beaten path has been followed, nor any custom tolerated which would interfere with a close inspection. The word "inspection" has in her eyes a distinct meaning, and carries with it a heavy degree of responsibility. The task is not always an agreeable one. To enter upon the countless phases of the different examinations is impossible, but it is not impossible to act upon each case as it arises, with due regard to the health and comfort of the wards of the State. The manner in which the Commission itself has invited the closest criticism is perhaps the best evidence that its work has been conducted with the utmost regard for the care and protection of the children.

INSPECTOR'S REPORT.

West Chester, September 1, 1905.

To the Commission of Soldiers' Orphans Schools, Harrisburg, Pennsylvania:

Gentlemen: The past year has been one of progress in every department of the schools. I think I can honestly say that in no way have we gone backward. The general discipline has been good and the work has been conducted with noticeable harmony. Good health and cleanly and well disinfected hospitals have been the result of the care taken by the Commission and those in charge of the schools, only one death occurring during the year. Our attendance has shown a decrease of 65 during the year and shows a total of 332 girls and 553 boys, 885 in all.

The school rooms have been well looked after and the work is full of progress and interest. Our teachers keep up to the times and are continually finding new things of interest to add to the routine work. The buildings are carefully ventilated and the grounds well taken care of. Many of the buildings being old need constant repairing but this is promptly attended to by the Commission, who keep well in touch with the schools. In all, the general state of the schools is extremely satisfactory and gratifying.

Our schools being military in character, the regular routine of this military training exerts an influence over the lives of the boys. The drill not only gives this training, but promotes physical strength and development, and affords healthful exercise. It is our purpose to teach courtesy among the children as it is indispensible to discipline; and we insist on all occasions upon having proper respect for teachers and all others with whom the children come in contact. While correct military discipline is insisted upon we also endeavor that kindness shall pervade every department of the school. The children have specified hours for study and are trained to habits of industry, and receive religious and moral instruction each day of the week, and Sunday schools on each Sabbath.

During a visit to one of the schools I accompanied the Military Instructor through the dormitories when the boys were going to bed. They were very orderly and quiet. The smaller boys, who occupy one of the dormitories, repeated a prayer in concert on their knees just before going to bed. I was much impressed with the scene and believe it will live in the memory of these boys in after life. The kindness and sympathy of the matrons fill to a marked degree the place of mothers to the orphans.

When the boys are transferred from the Chester Springs and the Jumonville Schools to the Industrial School they select one of the trades taught there. The idea is impressed upon the children that once having made a choice of a trade they should try to stick to that choice. I have often been surprised at the wonderful progress

the children make in their different trades in the short time alloted to them—about two years.

In my talks to the children I have endeavored to impress upon them the importance of cultivating the habit of self-reliance.

Hon. Thad. M. Mahon, a member of the Commission, in his address to the children at the Chester Springs Commencement, said among other things: "Children, if you wish to succeed in life, try to help yourselves." And in reference to the flag, he said, "The flag has not gone anywhere but what honor and patriotism followed." And Hon. Jacob C. Stineman said, among other things, "I believe the Soldiers' Orphan Schools are better to-day than they have ever been before." Captain R. H. Holgate, another member of the Commission, said, That during the war of the Rebellion we had a noble Governor, Andrew G. Curtin, the author and founder of the Soldiers' Orphan Schools. The grandest benefaction in the history of any State or Nation.

The officers and non-commissioned officers are selected by the Military Instructors of each school, from the boys who have been most studious and soldier-like in the performance of their duties, and the most tidy in appearance. These officers are required to aid the Military Instructors in the maintenance of discipline, and to report to them any violations of the rules of the schools. The fact that the officers among the boys are intrusted with this responsibility by the Military Instructors, increase their manliness of bearing, and tends to make them less dependent and more self-reliant.

Extract from the report of Comrades C. C. Faucet and C. Lee Hurst, a committee appointed by the Allegheny County G. A. R. Association, to visit the Soldiers' Orphan School at Uniontown.

The State Inspector, Major S. G. Willauer, accompanied us through all the departments; were shown every courtesy and privilege to see and learn all the facilities for the proper management and care of these orphan children. The sleeping rooms are large and well ventilated, heated by steam and supplied with iron bedsteads. They have good mattresses and plenty of clothing.

Next the wash and bath rooms, here each child has a number and a hook on which to hang his towel, also a place to hang his clothes. No child is permitted to use other than his own towel, tooth or hair brush.

The kitchen, dining room, laundry, school rooms, chapel, and church were all visited and our honest conviction is, the management are deserving of the highest praise for the excellent manner in which they care for the orphan children of the men who sacrificed so much to save the flag and honor of our country.

Everywhere in all departments, we witnessed nothing but good conduct and deportment of the children. The neat order in which the buildings are kept, as well as the grounds surrounding them.

At 5.30 p. m. Major Willauer invited us to accompany him on his inspection to the dining hall, where we found every table clean, inviting and loaded with good and wholesome food such as would tempt the appetite of any healthy person.

The discipline is firm and rigid, yet so full of tender love, that the friends of those entrusted to the care of this school, ought indeed

to be thankful. The children have great respect for the teachers and managers of the school.

Your committee received the greatest courtesy and cordial welcome by all connected with the school; our visit will linger in memory as one of pleasure and delight.

A committee from McCall Post, No. 31, of West Chester, visited the Chester Springs School at the commencement, and reported great satisfaction with the school and all they saw, among other things they said, "It seems to our committee that everything is being done for the children (both boys and girls) of this school that can be done; that there is a wise and efficient administration.

"The exercises in the afternoon and in the evening were probably equal to any given by the public schools of our borough. Some of the exhibitions given by the children were much above the average."

There was present, probably the largest delegation of Grand Army men that ever visited this school at any annual entertainment. We can speak in the highest terms of the children and of the manner in which the affairs of the school are conducted.

The fire drills are still practiced sufficiently to enable the military instructors to handle the boys at times when excitement might occur in case of fire or other excitement. The value of this fire drill has been clearly proven in the several fires we have had at the Chester Springs and Industrial Schools; not a single child was injured—their attention being attracted during the fire drill, they did not realize the danger they were in, and were in complete control of the officers in charge.

The Industrial School News continues to be a very interesting paper; it is printed by the boys and girls of the school, and has a large circulation, and is rapidly becoming the popular G. A. R. paper of the State.

The Class Day exercises were held on Tuesday, June 20th, at the Industrial School, when thirty-two pupils were presented with diplomas by Dr. M. H. Reaser, President of Wilson College, Chambersburg. He also presented the prizes to the winners.

At the closing of the year I wish to express to each and every one in charge of the work of the schools my sincere thanks for the desire which I have found everywhere manifest to give me the fullest opportunity for inspection, and to tell them that I have been pleased with the honorable pride shown by them in their willingness to have everything seen and inspected. This willingness I beg to suggest to the members of the commission is the best proof of the healthy condition of the schools and I desire to commend the commission for making it possible and to thank them for their courtesies to me during the past year.

Very respectfully submitted,

S. G. WILLAUER,
Inspector.

REPORTS OF SUPERINTENDENTS.

SOLDIERS' ORPHAN SCHOOL, CHESTER SPRINGS.

Chester Springs, Pa., June 30th, 1905.

Commission of Soldiers' Orphan Schools, Harrisburg, Pa.:

Gentlemen: I hereby submit the fifteenth annual report of the Chester Springs Soldiers' Orphan School.

June 30th, 1904, there were 326 pupils on the roll. During the year there has been added 61 on order, making a total for the year 387. During the same period, there were discharged, on age, 27; on order, 1, and by transfer to the Industrial School at Scotland, Pa., 59; total discharged, 87. Add to this the loss of one by death, the entire loss is 88, leaving on the roll, June 30th, 1905, 299 pupils.

With the exception of two cases of scarlet fever, and two of diphtheria, which by immediate isolation were prevented from being communicated to others, no serious illness has visited our school during the year. The death referred to, was due to tuberculosis, with which I am sure the child must have been afflicted when admitted.

One of our pupils, (a colored boy), Joseph Krunkleton, of Chambersburg, in spite of the most skillful efforts of our physician, supplemented by treatment during several months at the Wills' Eye, and St. Joseph's hospitals, has become almost totally blind, and will undoubtedly lose his sight.

With the approval of the property committee, improvements have been made in several of the buildings.

The papering and painting of the dining-room, transformed it from a dark and gloomy into an attractive, pleasant and most inviting place. In the boys' wash-room, a cement floor replaced the old worn out wooden one. New cement floors were also laid in the engine rooms of the steam plant and laundry. The boys' old No. 10 was torn away, a new room built in which were placed 10 new, up-to-date flush-closets, with urinals cleansed by an automatic flush tank.

The various holiday seasons were appropriately observed. The religious services have been of the same character as heretofore reported.

It is with satisfaction that I refer to the work done in all departments during the past year, in the education and training of the children. The manner in which they passed their examinations, and acquitted themselves, the boys in their military drills and evolutions and the girls in marching and calisthenics, not only demonstrated this, but merited the words of praise and the hearty applause they received at our annual commencement exercises, and attested the fact that the work of the year had been eminently successful. That success was accomplished by the united, harmonious efforts of all.

Were it not for the fact that I have been officially limited as to space, I would like to mention in words of praise, the name of each individual, teacher and employe. Many of them were referred to by members of your body at our commencement.

In accordance with his custom, Mr. Stees, of Philadelphia, who is intensely interested in the Soldiers' Orphan Schools, presented gold medals to each of the two pupils attaining the highest averages in their respective grades, and Mr. Koons, also of Philadelphia, presented a silver medal to the pupil attaining the next highest average. The medals were accordingly given in their respective order to Christine Feige, of Lancaster; Daniel Garrahan, of McAdoo, and Elizabeth Lyman, of Hazleton.

I cannot close this report without referring to the gratification felt by the superintendent and staff, at the interest manifested by the presence of so many at our "annual." On the part of the Commission, General L. G. McCauley, Col. R. H. Holgate, Col. James F. Morrison and Senator J. C. Stineman, with their good wives, and Hon. T. M. Mahon and Hon. John H. Riebel, Charles A. Suydam, A. A. G., and J. Henry Holcomb, of Department Headquarters, were also here. Delegations from Posts of West Chester, Coatesville, Downingtown, Phoenixville and Kennett Square, many of them accompanied by their wives, were present and most cordially welcomed.

The Inspector, Maj. Willauer, and Inspectress, Mrs. L. P. Swentzel, were welcome guests.

The joy of the occasion was not unmixed with sadness. He whose presence is always expected and ever welcome, and whose voice all are always delighted to hear, was absent, and the sadness was intensified by the thought that, that instead of being present to add to, and take part in the festivities of the occasion, Col. Sample was lying on a bed of suffering.

To the members of the Commission, words are inadequate to express to you how much I appreciate your uniform kindness and courtesy. Nothing that would in any way contribute to the comfort of pupil or employe, was ever refused, while many things which were calculated to please and make all happier and more contented, were sent to us unsolicited.

Thanking you most sincerely for all your kindness,

I am very truly yours,

DR. M. B. HUGHES,
Superintendent.

COPY OF RESOLUTION.

Major James E. McFarlan, Commander Post No. 31, G. A. R., West Chester, Pa.:

Dear Comrade: Your committee on Soldiers' Orphans' Schools beg leave to submit the following report:

The committee, composed of Comrades Walton, Sweeney, Turner, Darlington and Gray, with Comrades Boyles, Ford, Hoopes, Burns, Evans, Townsend and Hess, visited the Soldiers' Orphans' School at Chester Springs yesterday.

They arrived at the school about 9 o'clock a. m., and during the forenoon witnessed the inspection of the boys of the school in their drill manoevers and manual of arms, and saw the condition of their school and equipments, the dormitories in which they sleep, and the food which is served them.

The boys have been brought to a wonderful state of discipline under the direction of Comrade Beekman, of our Post, who is the military instructor.

It seems to your committee that everything is being done for the children (both boys and girls) of this school that can be done; that there is a wise and efficient administration.

The exercises in the afternoon and in the evening were probably up and equal to any given by the public schools of our borough. Some of the exhibitions given by the children were rather above the average.

We were most hospitably entertained by the Superintendent, Dr. M. B. Hughes; by Comrade Beekman and the staff, and the employes about the school seemed to strive each with the other to make our visit pleasant and entertaining.

Comrade Maxwell, of Post No. 34; Comrades Tencate and others of Post No. 45; comrades of Post No. 54, and Comrades Wilson and Wills, of the Post at Downingtown, were present. All of these comrades were in uniform. This was probably the largest delegation of Grand Army men that ever visited this school at any annual entertainment.

We can speak in the highest terms of the condition of the children and of the manner in which the affairs of the school are conducted.

We beg to suggest that a vote of thanks be tendered to Dr. Hughes and the staff of the school for their particular hospitality and entertainment.

All of which is respectfully submitted.

BENJ. H. SWEENEY,
THEO. F. TURNER,
JOSEPH B. DARLINGTON,

UNIONTOWN SOLDIERS' ORPHAN SCHOOL.

Jumonville, Pa., June 30, 1905.

Commission Soldiers' Orphans' Schools, Harrisburg, Pa.:

Gentlemen: I beg herewith to submit the thirty-ninth annual report of the Uniontown Soldiers' Orphan School.

The number of children on the roll at close of last fiscal year, ended May 31, 1904, was 323. During the year there have been admitted on order 38, making the total number on the roll during the year ended May 31, 1905, 361. There have been discharged on age 15, by order of the Commission of Soldiers' Orphan Schools 5, by transfer to the Soldiers' Orphan Industrial School 68—there has been one death—our total losses during the year, 98. Our losses over our accessions have therefore been 51, leaving the number on the roll at close of the year, May 31, 1905, 272, of which number 180 are boys, and 92 girls.

The general health of the school has been good during the year. There were, however, a number of cases of scarletina, none of which proved fatal, and left no bad results in any case.

We were not so fortunate in the treatment of diphtheria, which threatened to assume an epidemic form, and we regret to note the death of one pupil, Fred H. Cooney, which occurred December 29, 1904, from heart failure, the result of diphtheria.

That the fatalities were so few considering the number of children affected bears evidence to the generally good physical condition of the children, and the care and skill exercised by our school physician, Dr. C. H. La Clair, and our efficient nurse, Miss Lida M. Victor.

The general deportment of the children has been for the most part commendable. Breaches of discipline have not been frequent or of a serious character, and in view of all the circumstances, the conduct of the children has been surprisingly good.

An unusually large number of changes took place at the beginning and throughout the term in the personnel of the faculty of the school.

Three new teachers, a new matron, new military instructor, three new assistant matrons, and changes in other departments, altogether almost one-half of the entire force were newcomers, most of them without previous experience in orphan school work. We were for two months without the services of a military instructor, and three different persons filled the position of matron during the year. Notwithstanding these disadvantageous circumstances the work of the school went on without any apparent detriment. These, and other circumstances made the work very burdensome and trying to the management of the institution, but the results of the year's work compare favorably with those of former years.

It is but just to say that these results were only possible by the loyal sympathy and support of practically the entire institution, teachers, employes and children alike.

Some important improvements have been made during the past year. Almost an entirely new water works has been installed, including a substantial stone pump house, new Worthington pump, a fifty horse power upright boiler, and 2,300 feet of three inch pipe running from pump house to the reservoir. The main buildings of the school were painted, floors laid in a number of the rooms, and general repairs made which put the property of the school in first class condition. A one story shed covering the bake oven was torn down and in its place a two story building erected, the upper floor of which is used as a band room. As the school rooms were formerly used for band practice, this new building has added much to our convenience as well as to the appearance of the property. The educational department has been under the efficient care of Prof. H. E. Gress, assisted by capable assistants. We believe that this department is in excellent condition. The children have shown great interest in their studies and have made commendable progress.

As in former years much attention has been given to nature studies. This has a tendency to cultivate a love for nature and to improve the powers of observation, at the same time imparting valuable information.

There being so very many young children in the school, the primary teachers have adopted many of the kindergarten methods, and have kept little hands busy and little minds interested in weaving, tracing and drawing. The specimens of the children's work in this department made a very creditable display at the annual examination.

The walls of the chapel room were adorned with lithograph pictures of birds and animals, and with portraits of America's statesmen and poets and some scenes from sacred history, becomingly grouped according to subject, which brighten up the walls of the school hall, and are a constant source of pleasure and profit to the pupils.

We lose one of our teachers with the close of the school term, Miss Janette Wishart, who resigns to accept a position at her own home. Miss Wishart is a lady of fine character and an excellent teacher, much beloved by the little children under her care.

Our annual examinations took place on the 12th day of June. There were but two members of the Commission present, Capt. R. H. Holgate and Hon. John H. Riebel, accompanied by Capt. W. J. George, chief clerk of the Commission of Soldiers' Orphan Schools, and Maj. S. G. Willauer, State Inspector of Soldiers' Orphan Schools. Mr. and Mrs. J. E. Clark and daughter, Mildred, were guests of the Commission. A committee of the G. A. R. Association of Allegheny county, consisting of Mr. C. C. Faucett and Mr. J. Lee Hurst, also spent the day with us, and were shown through every department of the school, and were interested witnesses of all the various exercises of the day. These representatives of the Grand Army made a careful examination into every department of the institution, mingled freely with the children, made notes of their careful observations which they embodied in a report to the Allegheny County G. A. R. Association. We trust that their impressions of the school may be given a wider circulation. These gentlemen are cordially invited to repeat their visit.

The exercises of "Commencement" Day were the usual military and calesthenic drills, and evening entertainment. The military department is under the charge of Capt. R. R. Sanner, of Co. H, 85th Regiment, assisted by Cadet Major H. R. Cross. Although the battalion had not been organized prior to the coming of Capt. Sanner, March 1, 1905, the boys acquitted themselves with credit. The other exercises were also of like creditable character.

We have passed successfully another milestone of our journey. It is now 39 years on the coming 19th of September since this institution was opened by the reception of the first pupil, at old Madison College building in Uniontown.

For thirty-one years we have occupied this site, at Jumonville, on Laurel Ridge, of the Allegheny mountains. No more healthful or beautiful spot can be found anywhere for such an institution.

The committee of G. A. R. Posts in their report expressed the wish, often uttered by others, that when the beneficent work of the Commonwealth in behalf of the orphan children of the her soldiers shall have been ended, the State may throw around other unfortunate and deserving wards the strong arm of her protection and gather them here to train them into intelligent and useful citizenship. We close the record of the year with the sense of satisfaction that the mariner feels when he has anchored in a quiet harbor after a sometimes peaceful, sometimes troublous voyage. Though buffeted often with dirty and disagreeable weather and vicious squalls, we have endeavored to keep the needle true to the pole star of duty and fidelity to the interests of these children committed to our care.

J. A. WATERS,
Superintendent.

SOLDIERS' ORPHANS' INDUSTRIAL SCHOOL.

Scotland, Pa., June 30, 1905.

To the Commission of Soldiers' Orphans' Schools, Harrisburg, Pa.:

Gentlemen: I have the honor to submit the tenth annual report of the Soldiers' Orphans 'Industrial School and accompany same with the reports of my principal subordinates.

The work of the past year, like that of all the preceding years during my incumbency of the office of superintendent, which began July 1st, 1900, has been of a most satisfactory character. The pupils have all been happy and contented, and the great majority of them have seemed anxious to improve the opportunities here given them to fit themselves for the battle of life.

The enactment of a law at the recent session of the Legislature giving the Commission the authority to retain deserving pupils, or pupils who have no homes, in this school until they shall have arrived at the age of eighteen years, will most assuredly be productive of good results. Already about forty of our most promising boys and girls, now nearing the age of sixteen, have made application for retention under the act. That they are doing this voluntarily, after each having had several years' experience in the schools, shows conclusively that they are well satisfied with their surroundings, and that they fully appreciate all that the State is doing for them.

Members of the Commission have visited us frequently during the year and have at all times seemed most anxious to lend all the assistance in their power toward the improvement of our surroundings and a higher degree of efficiency in our school work.

To these gentlemen and all those directly connected with the institution in an official capacity is due a very large share of the credit of making this school the model one of its kind, not only in our own State but in the country at large.

Thanking one and all for the encouragement, the loyalty and the support which have made my duties both easy and pleasant during the year, I am,

Very respectfully yours,
GEORGE W. SKINNER,
Superintendent

BAND.

Scotland, Pa., June 30, 1905.

Capt. George W. Skinner, Superintendent Soldiers' Orphans' Industrial School, Scotland, Pa.:

My Dear Sir: The following is a report of the band for the year that has just closed:

I organized the band September 3rd, with thirty-five (35) members; of this number fourteen, (14) were new. We had two rehearsals daily, except Saturday.

Our first engagement away from home was at Chambersburg in October, where we furnished music for a G. A. R. reunion. Our next trip away was when we played for the riding tournament, given for the benefit of the Chambersburg Hospital, in November. The boys were highly complimented on this occasion. We gave a number of concerts at the school during the winter, and also furnished all the music for outdoor drills and calisthenics. The band filled engagements at Chambersburg on Memorial Day and also at Middle Springs on the occasion of the decoration of the graves of soldiers and the unveiling of the monument in which many distinguished people took part. We received numerous other invitations to play but were compelled to decline them.

This was the largest band we have ever had, and freely spoken of as the best.

Thanking you and all who have made my work pleasant.

Respectfully,

CHARLES E. MENTZER,
Band Master and Instructor.

MEDICAL DEPARTMENT.

Chambersburg, Pa., June 30, 1905.

Capt. George W. Skinner, Superintendent Soldiers' Orphans' Industrial School, Scotland, Pa.:

My Dear Sir: I have the honor to herewith hand you a report of the services rendered to the children at the Industrial School, by me, as physician during the year. Miss Katherine Clarke, trained nurse, of Chambersburg, Pa., was in charge at the hospital. There was less sickness among the children this year than any preceding one since I have been physician to the School. The general health of the children was good. No epidemic occurred during the year. One cast of diphtheria followed by acute nephritis and one exaggerated case of chorea caused more anxiety than any other cases treated; the first made a complete recovery and the other was much improved when he went to his home at vacation.

In view of the fact that small-pox has been epidemic throughout Pennsylvania during the year, I want to recommend that soon after the children return in September they be vaccinated; also that the small brick house along the road leading from Scotland to Chambersburg, on the school grounds, and which is now vacant, be fitted up and ready at any time to be used as a contagious or isolated hospital. Another year has passed and it is gratifying to be able to report that no deaths have occurred at our school.

As usual my work has been pleasant, and I thank all who helped make it easy and effectual.

Very truly,
W. F. SKINNER,
M. D.

EDUCATIONAL AND MILITARY DEPARTMENTS.

Scotland, Pa., June 30, 1905.

Capt. George W. Skinner, Superintendent Soldiers' Orphans' Industrial School, Scotland, Pa.:

Dear Sir: I herewith submit the ninth annual report of the Educational, Military, Stenography and Telegraphy Departments.

With the same corps of competent instructors, the same curriculum and the advantage of another year's valuable experience, school opened September 1, 1904, under most favorable circumstances. By means of frequent reviews and thorough examinations held quarterly, the pupils were closely graded. The individual needs of each student were sought out by the instructors and a special effort made to strengthen and help where help and encouragement were most needed. A personal supervision of the evening study period enabled each teacher to do this most effectively.

Special exercises, in which the pupils took active and willing part, were used to celebrate all the national holidays. Frequent entertainments were given during the year by the pupils under the direction of the teachers. We are under obligations to members of the Commission and many other distinguished visitors for interesting and instructive talks from time to time during the year.

The regular evening chapel and Sunday morning Sabbath school exercises were continued without interruption. Rev. Hughes, of Scotland, and other ministers of the vicinity furnished regular preaching during the year. The local Christian Endeavor Society conducted by the girls of the school continues prosperous.

Early in the year Charles H. Magee, of Philadelphia, offered two handsome gold watches as prizes to the boys and girls who would make the highest general averages in school work during the school term. Catharine Denworth and John Hughes won these prizes. Elizabeth Stewart and William Garris won the silver watches offered as second prizes.

The graduating class of 1905 was composed of twelve girls and twenty boys. The diplomas and prizes were presented by Dr. M. H. Reaser, President of Wilson College, at the close of the class exercises, June 20th.

Stenography and Telegraphy Department.

The Stenography and Telegraphy Department fully demonstrates the wisdom of requiring a higher entrance standard by sending out probably the most thorough class in its history. A number of the pupils had positions offered them before graduation. Two new typewriters were added to the equipment of this department. The introduction of both double and sigle key-board machines together with instruction in touch typewriting has materially broadened the scope of this line of work.

Military and Physical Culture.

The work of the Military and Physical Culture Departments has been faithfully performed. All drills, ceremonies, and exercises were systematically learned by the pupils, and were of unquestioned value to the discipline, mental and physical training sought. The exhibition drills of the year were numerous and of a high standard.

The greater part of the actual work necessary to prepare these classes was done by the assistant military instructor, the assistant matron and their willing and efficient helpers among the boy and girl officers.

Athletic sports were never in a more flourishing condition. The foot-ball and base-ball teams were an honor to the institution, and the latter left behind a record that will not soon be surpassed.

Our athletic fields are among the best in the valley and the equipment for clean healthy sport unsurpassed. The benefits of the above are not confined to the "Varsity" teams but excellent privileges are extended to every pupil in school. The tennis and croquet courts usually run full capacity.

The loss of all the officers as well as a number of non-commissioned officers will necessitate a complete reorganization of the battalion early in September.

Respectfully submitted,

W. C. BAMBRICK,
Principal and Military Instructor.
